

October 31, 2013

To whom it may concern:

Andreas Redaoui, and his staff at Top QM systems, has been our ISO consultant for the past six years. We have received advice and guidance in setting up our quality systems on the path to certification and how to maintain and improve them after certification. Top QM's contributions have been invaluable in that process. They have found ways for us to meet the standards while allowing for practical solutions that work in the manufacturing environment.

Sincerely,

A handwritten signature in black ink that reads 'Ken Hawkins'.

Ken Hawkins
